Related configuration comparisons

Selected model	6 ft, perforated pattern, inground
Available lengths	4, 6 and 8 ft are different models
Surface mounting	Separate 932SM configuration
Pattern alternatives	Diamond, perforated and wave have separate model codes

This 6-foot Mall bench has a perforated seat pattern, a 15-inch-deep seating surface and a four-inch outside border. Its SKU identifies the inground rather than surface-mounted configuration.

The 932 Mall bench family offers alternative lengths and seating patterns; each material pattern and installation choice must be matched to the correct catalog number. The bench is backless, so it should not be presented as a backed seating model.

Thermoplastic-coated seating and a powder-coated frame are specified by the manufacturer. Select finish colors during ordering and coordinate inground footings with the project details. No companion tables, mounting kits or signage are implied as included.
