Product Image

Description

Powder-coated ADA-configured in-ground park lantern hanger

The P670H is the powder-coated ADA-accessible version of the 670-series park lantern hanger. This steel in-ground accessory provides a hanging arrangement for lantern use at campsites and outdoor recreation areas.

Product specifications

Model	P670H
Configuration	ADA-accessible hanger design
Overall dimension from 670H drawing	74-1/2-inch tall x 20-inch wide
Structure	2-3/8-inch outside-diameter galvanized pipe
Finish	Powder coat; specify color
Mount	In-ground concrete footing
Scope	Hanger only, no lantern included

Selection and comparison

P670H is configured for accessible use compared with the standard P670. The accessible configuration changes function and layout; confirm applicable site accessibility requirements and actual installed reach.

Confirm model compatibility, installation requirements and selected finish before ordering.
