Product Image

Description

Name: Zesty Zepher
Series: Minimo
Age Group: 5 - 12
# of Play Activities: 16
Child Capacity: 40-44
Use Zone: 55'-6" x 30'-9"
Max Fall Height: 8'-0"
Equipment or Structure Size: 41'-9" x 18'-8" x 18'-5"
Structure Weight 4050

Description Playgrounds designed with Minimo tend to be a great solution for religious organizations, daycares, multi-family housing, and schools and organizations that want to enhance their facility with a play space. Typically, these playgrounds need to provide lots of activity in a small or medium-sized space, and the cost of purchasing, shipping and installation needsto be very reasonable.

Minimo playgrounds offer you features such as a slightly smaller footprint than standard equipment. This smaller footprint accommodates smaller play spaces with more activities without sacrificing safety or durability. In addition to providing big play in smaller spaces, you

will also enjoy lower equipment cost, shipping cost, and surfacing cost that one experiences with standard-sized playgrounds.

Minimo playgrounds are skillfully crafted with your choice of 3.5" OD galvanized steel or aluminum support posts which are, along with all of the steel handrails, barriers, gates, and climbers, coated with a baked-on polyester powder coat finish for a lifetime of protection against the elements. All steel decking and stairs are encased in a long-lasting PVC coating. The three-dimensional plastic slides, panels, roofs, and climbers are rotationally molded using virgin compounded resins that feature greater UV breakdown resistance than dry blended resins. The HDPE sheet plastic climbers and activities are specifically manufactured at the factory for high-quality control and not purchased from a supplier.
