Description

Bright aluminum replacement crank post for 7.5-foot UltraSite umbrella

The 7GCRA is a bright aluminum crank-lift post component for a compatible 7.5-foot UltraSite fiberglass-rib umbrella system. This listing is for the post only, rather than an assembled umbrella with canopy and ribs.

Product specifications

Model	7GCRA
Umbrella family	7.5-foot UltraSite crank-lift umbrella
Post finish	Bright aluminum
Pole	Aluminum, 1-1/2-inch nominal outside diameter in the family specification

Lift mechanism	Crank
Included scope	Post only; canopy and rib assembly not represented as included

Selection and comparison

Compare 7GCRA bright aluminum with the 7GCRC champagne and 7GCRW white post finishes. These are finish options for matching umbrella support assemblies, not complete umbrella kits. Check original umbrella generation and socket fit before replacement.

Confirm model compatibility, installation requirements and selected finish before ordering.
