Description

6 Foot Extra Heavy Duty Table with Bolt Thru Frame Aluminum (BT238-A6)

The 6 Foot Extra Heavy Duty Table with Bolt Thru Frame Aluminum is an individual 2026 catalog configuration. The exact manufacturer price-list entry describes it as 6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, ALUMINUM. The model-specific specifications below identify the product supplied under this SKU, not every accessory, color or variation that may be offered throughout the collection.

The heavy-duty bolt-through table is built around a 2-3/8-inch steel frame and 2-by-10-inch seating and tabletop planks. Wood, recycled plastic and aluminum material configurations are listed separately, rather than being interchangeable components supplied with a single table.

Portable and surface-mounting arrangements are available through manufacturer-specified

options. Compare six- and eight-foot lengths, frame coating, plank material and hardware requirements. Thermoplastic coated tables form another separate BT238 product range.

Specifications for this model

Specification	Configuration
Family	Extra heavy-duty bolt-through picnic table
Length	6 ft
Frame	2-3/8 in outside diameter bolt-together steel pipe
Installation	Portable or surface mount

Compare orderable configurations

The following are distinct 2026 catalog models. They are provided for comparing finishes, layouts, sizes or materials, rather than as accessories included with this SKU.

Alternative model	Manufacturer catalog description
BT238-BRN6	6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, BROWN RECYCLED PLASTIC
BT238-CDR6	6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, CEDAR RECYCLED PLASTIC
BT238-GRN6	6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, GREEN RECYCLED PLASTIC
BT238-GRY6	6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, GRAY RECYCLED PLASTIC
BT238-PT6	6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, PRESSURE TREATED

For project submittals and quotations, identify the exact model and verify the site-specific installation requirements before ordering. Separately priced accessories and alternate configurations should be specified as their own items.
