Description

3 Seat Solid Top ADA Table Inground Slat (30SH3-S) corresponds to the 2026 exact-model description: 3-SEAT SOLID TOP ADA TABLE, INGROUND, SLAT. The specifications below identify this SKU rather than every available option in the manufacturer family.

Exact model specifications

Catalog model	30SH3-S
2026 exact-model listing	3-SEAT SOLID TOP ADA TABLE, INGROUND, SLAT
Tabletop	36-inch diameter solid round top
Included seating	3 separate 24-inch slatted seats
Mounting	Inground
Finish	Powder-coated steel

Configuration comparison

This ensemble	3 slatted seats, inground
Seat options	Two-, three- and four-seat Hamilton designs have different model codes
Mounting	Inground and surface-mount configurations are different models
Stand-alone table	364 portable solid-top tables exclude seats

This Hamilton table ensemble includes a solid 36-inch round tabletop and 3 coordinating 24-inch slatted seats, installed by inground. Manufacturer documentation describes two-, three- and four-seat Hamilton arrangements, distinct from the portable 364 tabletop that does not include seats. The slatted chairs and powder-coated frame create a coordinated furniture group for gathering and informal dining. The number of seats is an exact-model specification and should not be described as a changeable accessory count. Site preparation depends on the selected inground or surface-mounted version, including suitable footings, anchoring and circulation around seated users. Choose the finish color when ordering. Companion tables or additional chairs outside the identified model are separate catalog items. The completed order should distinguish mounting, seat count and overall space available.
