Description

Smooth Wave Dip for Added Fun!

Add extra motion and excitement to your playground with the 6 Foot Deck Height Starglide Open Entrance Wave Slide. This model includes a fully open entrance section, making it easy for children to transition smoothly from the deck onto the slide. With a total slide length of approximately 12 feet, it’s engineered to pair perfectly with 6-foot deck heights.

Part of the Starglide sectional system, this open-entrance wave slide allows for customizable configurations and is a direct replacement for many discontinued chute-style slides. The wave profile adds a gentle bump that increases rider excitement while maintaining safety.

This model replaces the CSS-6WAVE, 6 Foot Deck Height Chute Slide Sectional Wave

Built from commercial-grade, fade-resistant plastic, it’s ideal for parks, schools, churches, HOAs, daycares, and recreation centers needing a reliable chute slide replacement.
