Frame	Single pedestal powder-coated steel

Related configuration comparisons

Selected SKU	Four-seat square table, surface mount
Mount styles	Inground and surface mounting have separate model numbers
ADA configuration	Three-seat 40SH3-S differs from four-seat standard 40S-S
Other family	42 series is round with solid tabletop, not equivalent to the 40 square table

This Kensington series 40 table has a 46-inch square slatted steel top and four coordinating seats. Its surface mount installation is defined by the exact model.

UltraSite describes rolled slats fabricated from steel, a powder-coated finish and single-pedestal support. The model-specific seating arrangement matters for wheelchair access and should not be converted by treating seats as interchangeable options.

Kensington series 42 round-top products are separate models with a different table shape. Confirm the intended anchoring design, surrounding seated circulation and project finish colors before ordering. The table is an integrated seating product rather than a stand-alone top without seats.
