Description

Charleston Recycled Receptacle Green w Flat Top Lid and Liner (CH-GRN32FT)

The Charleston Recycled Receptacle Green w Flat Top Lid and Liner is the exact charleston recycled receptacle configuration listed as model CH-GRN32FT in the 2026 manufacturer catalog. The manufacturer describes this SKU as Charleston Recycled Receptacle - Green W/ Flat Top Lid & Liner. This identifies the orderable configuration, rather than every color, size or mounting variation offered across the broader product family.

The Charleston receptacle has a 32-gallon liner and a recycled-plastic body constructed from 2-by-4-inch planks. Powder-coated decorative rosettes accent the top. Manufacturer specifications include a lid and liner with the receptacle.

The flat-top, rain-bonnet and ash-urn tops are different catalog configurations, not lids shipped

together. Portable or surface mounting is available; an inground mounting kit is separately offered. Review mounting conditions, compatible anchors and requested finish when planning a school, park, streetscape or recreation installation. Other family styles, accessory pieces and finishes are separate product selections unless specifically included in this model description.
