Configuration comparison

Selected configuration	6 ft, perforated, inground
Alternate pattern	346S-V6, same length and mount
Alternate mount	346SM-P6, same length and pattern
Other length	8 ft
Mounting	Inground and surface-mount versions have distinct SKUs

The 346 mall-table range offers design consistency across dining terraces, school grounds and recreation areas. Confirm proposed anchoring and site layout when specifying the surface-mount or inground frame. Colors and additional model configurations are selected separately, and a change of length, pattern or mount should use the corresponding product SKU rather than be assumed included.
