Product Image

Description

The Fits 6 and 8 foot BOLT THRU TABLE BT158 FRAME ONLY is a frame-only product, model BT158-F, for a Heavy-Duty rectangular picnic-table assembly. It is **not a complete picnic table**: seating and tabletop planks are not included in the frame-only designation. Select companion components according to the manufacturer compatibility requirements, rather than assuming the frame includes finished seats or a table top.

Exact-model specifications

Exact SKU	BT158-F
Supplied item	Table frame only
Construction system	Bolt-Thru 158 table
Primary application	wood plank applications
Catalog compatibility	Fits 6' & 8' BOLT-THRU TABLE - BT158 FRAME ONLY w/ hardware (use with wood planks only)

Top and seats	Not represented as included

Configuration comparison

Selected frame	BT158-F frame only
Complete table	Separate finished 158 or BT158 table SKU including configured top and seating
6-foot and 8-foot assemblies	Confirm compatibility with selected planks and frame layout
Mounting	Select the compatible mounting arrangement during project specification

Ordering a frame without the top and bench planks supports replacement, custom fabrication or a specifically planned site-furniture assembly. For a complete ready-to-install picnic table, select the appropriate finished picnic-table model. Confirm the supplied hardware and compatible planking with the current manufacturer specification before quoting individual parts.
