Product Image

Description

Enhanced digital control panel reads temperature from grill surface for a more accurate temperature reading
Comes standard with two meat probes to get that exact cooking temperature
Increased hood clearance allows more food in the fire box or added rotisserie space
Comes with four (4) 14,000-BTU main burners each, plus a 10,000-BTU rear burner to provide efficient zonal power
Spring-assisted grill lid with ergonomic “H” handle for the smoothest operation
Multipurpose, heavy-duty warming rack can now be stored in an upright position without obstructing the internal lights
Non-slip, knurled knobs feature LED lights with temperature indicators for safety
304 stainless steel construction backed by best-in-class, lifetime warranty
Stainless steel flame tamers ensure even heat distribution across the grill surface
Thicker 12 mm hexagonal grill grates retain more heat for intense searing
