Description

24 Inch Round X 18 Inch High Lexington Planter | RD2418-LX

24 Inch Round X 18 Inch High Lexington Planter is a round commercial outdoor planter with nominal 24-inch plan dimension and 18-inch height, in the Lexington collection finish configuration.

Wood treatment and finish selections are separate manufacturer model numbers. Choose the matching material and layout for the landscape setting, and consider grouping similar planters with complementary benches and receptacles where the collection design supports it.

Confirm drainage, soil loading, placement clearances and any planter-liner requirement with the project specification. A matching appearance does not necessarily imply a compatible liner or mounting accessory.
