## Product Image

## Description

**PR-55 | UltraSite Thermoplastic metal receptacles**

This is the 55-gallon perforated version of the UltraSite thermoplastic-coated metal receptacle family. The model purchases the receptacle body, not a complete kit with lid and plastic liner. The thermoplastic finish is specified separately from its geometric cutout pattern. Compare the 32- and 55-gallon capacities and confirm compatible lid, liner, color and installation kit as separately priced accessories.

### Exact-model specifications

| FB | Fiesta perforation pattern |
| W | Wave steel pattern |
| S | Steel slat pattern |
| Capacity choices | 32 or 55 gallons, independent SKUs |

**Collection choices and accessories:** Matching outdoor furnishings, finishes and separately priced accessories are identified in the manufacturer catalog. Order a distinct SKU whenever the material, size, mounting or included accessory changes price. Check exact model compatibility before combining components.

**Selection guidance:** Confirm the desired finish or color, installation area, product capacity and site requirements with the quotation. The exact model specification takes precedence over general collection information.
