## Description

**21-GRN6 | UltraSite Recycled benches and tables**

The 21 series is a portable all-recycled bench with a backrest. The manufacturer identifies four 2 by 6 inch planks and zinc-plated hardware. Specify the recycled-plastic plank color by model and review coordinating all-recycled tables and backless benches as independent products. Recycled plastic reduces exposed wood upkeep, but installation requirements and accessory purchases must be established for the exact selected model.

**Collection choices and accessories:** Matching outdoor furnishings, finishes and separately priced accessories are identified in the manufacturer catalog. Order a distinct SKU whenever the material, size, mounting or included accessory changes price. Check exact model compatibility before combining components.

**Selection guidance:** Confirm the desired finish or color, installation area, product capacity and site requirements with the quotation. The exact model specification takes precedence over general collection information.
