Description

21-GRY6 | UltraSite Recycled benches and tables

The 21 series is a portable all-recycled bench with a backrest. The manufacturer identifies four 2 by 6 inch planks and zinc-plated hardware. Specify the recycled-plastic plank color by model and review coordinating all-recycled tables and backless benches as independent products. Recycled plastic reduces exposed wood upkeep, but installation requirements and accessory purchases must be established for the exact selected model.

Exact-model specifications

Compare sizes, styles and configurations

21 family	Recycled bench with back; 6 and 8 ft, portable
22 family	Recycled backless bench; independent SKU and seating configuration
24 / 26 family	Recycled outdoor table choices; verify seating arrangement and dimensions

Collection choices and accessories: Matching outdoor furnishings, finishes and separately priced accessories are identified in the manufacturer catalog. Order a distinct SKU whenever the material, size, mounting or included accessory changes price. Check exact model compatibility before combining components.

Selection guidance: Confirm the desired finish or color, installation area, product capacity and site requirements with the quotation. The exact model specification takes precedence over general collection information.
