Description

Model 942P-FV is a portable support-frame-only component for the 942 extra heavy-duty park bench series without back. The catalog identifies it as a portable frame-only variant listed for six- and eight-foot configurations.

Features and ordering details

- Frame-only component; seating planks and complete bench assembly are not included
- Family 942: extra heavy-duty bench without back
- Mount type: portable; this is not interchangeable with the other mounting configurations
- Length compatibility: 6- or 8-foot compatible; confirm the exact plank pattern, dimension and hardware selection
- Manufacturer’s complete bench family describes welded tubular-steel construction and powder-coated framing; exact frame drawing governs each accessory

Compare configurations

Model	Configuration	Selection guidance
942P frame	Portable	Freestanding / relocatable installation
942S frame	Inground	Post embedded in designed foundation
942SM frame	Surface mount	Anchored to suitable prepared hardscape
942WM frame	Wall mount	Secured to engineered wall support

Confirm model and installation support before purchase. Frame dimensions, anchor requirements and included fittings depend on the exact frame drawing; no unsourced anchor dimensions or piece counts are asserted.
