Configuration comparison

This model	6 ft portable double-post contour bench with cedar recycled-plastic lumber
Length alternatives	6 ft and 8 ft models are independently ordered
Material alternatives	Untreated, stained or pressure-treated wood and recycled-plastic lumber have distinct catalog numbers
Mount alternatives	Inground and surface-mounted variants are separate models

This exact 6-foot double-post contour park bench uses cedar recycled-plastic lumber in eight 2-by-4-inch contoured seat slats. The manufacturer identifies an all-welded 2-3/8-inch outside-diameter pipe frame and zinc-plated fasteners. The portable version differs from inground and surface-mount configurations in the same family. Frame powder coating or hot-dip galvanizing is an ordering choice where applicable, rather than a separate plank material. Verify the selected frame coating and finished location before ordering. This bench is not an accessible picnic table and does not include a companion table. Other six- and eight-foot wood or recycled-plastic variants are separate products, allowing buyers to compare upkeep, finish and material without confusing those differences with the nominal bench length.
