Product Image

Description

6 Foot Heavy Duty Table Brown Recycled Plastic (158-BRN6) corresponds to the 2026 exact-model description: 6' HEAVY DUTY TABLE, BROWN RECYCLED PLASTIC. The specifications below identify this SKU rather than every available option in the manufacturer family.

Exact model specifications

Catalog model	158-BRN6
2026 exact-model listing	6' HEAVY DUTY TABLE, BROWN RECYCLED PLASTIC
Length	6 feet
Top and seats	Brown recycled-plastic lumber
Plank section	2 x 10 inches nominal
Layout	Walk-through picnic table
Frame	1-5/8 inch O.D. MIG-welded tubing

Brace	1-5/16 inch O.D. steel tubing
Fasteners	Zinc-plated for recycled-plastic construction
Mount	Portable, with manufacturer-listed surface-mount provisions

Configuration comparison

This SKU	6-foot brown recycled-plastic lumber walk-through table
Other sizes	Six-foot and eight-foot table models are separately identified
Materials	Wood and recycled-plastic planks are separate versions
Accessible alternatives	ADA accessible table configurations have separate model codes
Frame options	Powder coating or hot-dip galvanizing according to manufacturer order

This 6-foot 158 heavy-duty walk-through picnic table uses brown recycled-plastic lumber seat and tabletop planks rather than treated or stained wood. Its 1-5/8-inch outside-diameter all-welded steel-tube frame and 1-5/16-inch brace follow the manufacturer’s 158 family construction. The 2-by-10-inch planking supports the standard walk-through layout, which is different from dedicated accessible table configurations. Recycled-plastic hardware is zinc-plated per the manufacturer. Confirm the selected frame finish, whether permanent anchoring is required and the planned site clearances. The six- and eight-foot versions are distinct products. A frame-only offering should not be confused with this complete seating-and-table configuration.
