Description

6 Foot Extra Heavy Duty Table with Bolt Thru Frame Diamond Roll Edge (BT238-VR6)

The 6 Foot Extra Heavy Duty Table with Bolt Thru Frame Diamond Roll Edge is an individual 2026 catalog configuration. The exact manufacturer price-list entry describes it as 6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, DIAMOND ROLLED EDGE. The model-specific specifications below identify the product supplied under this SKU, not every accessory, color or variation that may be offered throughout the collection.

The thermoplastic finish is applied to the tabletop and seats while the 2-3/8-inch outside-diameter bolt-through steel frame is powder-coated. Manufacturer specifications identify an approximately 1-inch brace and stainless-steel hardware.

The BT238 series differs from all-welded-frame tables by using a bolt-together structure. The

diamond and perforated finishes, rolled or standard edges, six- and eight-foot lengths, and accessible configurations are separate orderable model choices.
