Description

6 Foot Extra Heavy Duty Table with Bolt Thru Frame Redwood Stain (BT238-T6)

The 6 Foot Extra Heavy Duty Table with Bolt Thru Frame Redwood Stain is an individual 2026 catalog configuration. The exact manufacturer price-list entry describes it as 6' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, REDWOOD STAIN. The model-specific specifications below identify the product supplied under this SKU, not every accessory, color or variation that may be offered throughout the collection.

The heavy-duty bolt-through table is built around a 2-3/8-inch steel frame and 2-by-10-inch seating and tabletop planks. Wood, recycled plastic and aluminum material configurations are listed separately, rather than being interchangeable components supplied with a single table.

Portable and surface-mounting arrangements are available through manufacturer-specified

options. Compare six- and eight-foot lengths, frame coating, plank material and hardware requirements. Thermoplastic coated tables form another separate BT238 product range.

Specifications for this model

Specification	Configuration
Family	Extra heavy-duty bolt-through picnic table
Length	6 ft
Frame	2-3/8 in outside diameter bolt-together steel pipe
Installation	Portable or surface mount
