## Description

### 8 Foot Extra Heavy Duty Table with Bolt Thru Frame Untreated Pine (BT238-U8)

The 8 Foot Extra Heavy Duty Table with Bolt Thru Frame Untreated Pine is an individual 2026 catalog configuration. The exact manufacturer price-list entry describes it as 8' EXTRA HEAVY DUTY TABLE W/ BOLT-THRU FRAME, UNTREATED PINE. The model-specific specifications below identify the product supplied under this SKU, not every accessory, color or variation that may be offered throughout the collection.

The heavy-duty bolt-through table is built around a 2-3/8-inch steel frame and 2-by-10-inch seating and tabletop planks. Wood, recycled plastic and aluminum material configurations are listed separately, rather than being interchangeable components supplied with a single table.

Portable and surface-mounting arrangements are available through manufacturer-specified

options. Compare six- and eight-foot lengths, frame coating, plank material and hardware requirements. Thermoplastic coated tables form another separate BT238 product range.
