Description

3 Foot Preschool Bench with Back Portable Perforated (940PPS-P3)

The 3 Foot Preschool Bench with Back Portable Perforated is the exact preschool bench with back configuration listed as model 940PPS-P3 in the 2026 manufacturer catalog. The manufacturer describes this SKU as 3' Preschool Bench W/ Back, Portable, Perforated. This identifies the orderable configuration, rather than every color, size or mounting variation offered across the broader product family.

The three-foot child-height bench has a backrest, rounded corners and a 12-inch seat height. The thermoplastic seating is supported by a powder-coated welded 1-5/8-inch O.D. steel-pipe frame and stainless-steel hardware.

Specify portable or inground placement before ordering. Diamond and perforated seating are

cataloged separately; the 1-inch brace described by the manufacturer applies to the portable frame. Review mounting conditions, compatible anchors and requested finish when planning a school, park, streetscape or recreation installation. Other family styles, accessory pieces and finishes are separate product selections unless specifically included in this model description.
