Description

46 Inch Preschool Round Table Perforated (358PS-RDP)

The 46 Inch Preschool Round Table Perforated is the exact preschool round learning table configuration listed as model 358PS-RDP in the 2026 manufacturer catalog. The manufacturer describes this SKU as 46" Preschool Round Table, Perforated. This identifies the orderable configuration, rather than every color, size or mounting variation offered across the broader product family.

The early-childhood round table is built around a 46-inch tabletop and 20-inch height for preschool use. The product family uses 1-5/8-inch O.D. all-welded steel pipe with 1-inch bracing and stainless-steel hardware.

Choose the round-top pattern by the exact model: diamond, perforated or a solid-top configuration. Other square and octagonal preschool tables are alternate shapes, not

attachments supplied with this SKU. Review mounting conditions, compatible anchors and requested finish when planning a school, park, streetscape or recreation installation. Other family styles, accessory pieces and finishes are separate product selections unless specifically included in this model description.
