Description

Ensure each student is equipped with a rope for aerobic activities during physical education class with the Heavyweight Sash Jump Rope. Its easy to keep children of all ages on track to a healthy lifestyle and physical fitness with this jump rope, which encourages students to have fun while exercising. Whether youre a coach or instructor of students in elementary or secondary school, you can provide students of different ages and heights with the proper-size jump rope thanks to the variety of available lengths.

- Encourages students to have fun while exercising and developing large motor skills
- Can be used in a variety of aerobic activities to promote a healthy lifestyle
- Thick, jointed sash cord is heavy and durable enough to withstand impacts on indoor or outdoor surfaces
- Well-shape hollow handles allow children to keep a firm grip on the rope
- Available in multiple sizes to equip students of all ages
