Description

Hitch Bike Rack Inground, model **5040S**, is a commercial two-bike rack with inground installation. The Hitch Bike Rack uses 2-3/8" O.D. x 12-gauge pre-galvanized steel pipe with 1-5/16" x 14-gauge zinc-tubing rings and a electrostatic powder coat, oven cured finish.

- **Bike capacity:** Up to 2 bikes
- **Mount:** Inground
- **Framework:** 2-3/8" O.D. x 12-gauge pre-galvanized steel pipe with 1-5/16" x 14-gauge zinc-tubing rings
- **Finish:** Electrostatic powder coat, oven cured
- **Overall size:** 36 in high x 20 in wide

The Hitch design uses a heavier pre-galvanized pipe frame with zinc-tubing rings and is electrically MIG welded.

Mounting comparison

Model	Family	Mount	Capacity	Framework

5040S	Hitch Bike Rack	Inground	2 bikes	2-3/8" O.D. x 12-gauge pre-galvanized steel pipe with 1-5/16" x 14-gauge zinc-tubing rings
5040SM	Hitch Bike Rack	Surface Mount	2 bikes	2-3/8" O.D. x 12-gauge pre-galvanized steel pipe with 1-5/16" x 14-gauge zinc-tubing rings

Other two-bike rack designs

Family	Model in this mount	Framework
Solstice Bike Rack	5000S	1.9" O.D. round x 11-gauge steel tubing
Horizons Bike Rack	5020S	2" square x 11-gauge steel tubing

Powder-coat color is a finish option and does not create a separate related-product relationship.
