Description

Make sure the members of your team have the power and speed needed to take home the victory with this Reactor by Champion Barbell® 20 lb. Weight Vest. Once they've mastered the ins and outs of the game, players can develop skills to improve their agility and strength and help them excel past the competition. Athletes and exercisers can wear this weighted vest while jogging, performing floor exercises or lifting weights for increased resistance and difficulty. By wearing this vest during normal workout routines and acclimating to the additional weight, athletes will feel unburdened and light on their feet when the vest comes off and its game time.

- Weight vest helps athletes develop overall speed and power
- Can be worn to carry added weight while running or performing exercises for a more challenging workout
- Sand-filled kettlebell weight packs can be added to or removed from the pockets on the

front of the vest

- Vest weight can be adjusted from 1 - 20 lb. to suit a variety of skill and fitness levels
- Comfort-fit straps with buckles deliver a snug and secure fit without restricting neck, shoulder or arm movement
