Description

Seamless Integration!

The 30 Inch Diameter x 3 Inch Flat Entry Panel – Bell End is a precision-molded entrance component designed for use with 30-inch diameter commercial tube slide systems. Measuring 41” x 43” x 3”, this flat entry panel creates a smooth and secure transition from platform deck to enclosed tube slide.

Engineered with a bell-end connection, this panel ensures proper alignment and seamless integration with compatible tube slide sections. The flat surface design promotes safe rider positioning while maintaining a clean, professional appearance at the slide entrance.
