Description

Stable Foundation for your Playground

The Square Plastic Platform – 48 Inch x 44 Inch is a durable structural deck component designed for commercial playground systems. This platform provides a stable standing and transition surface for slides, climbers, bridges, and tube components within modular playground layouts.

Measuring 48 inches by 44 inches, the square platform offers ample standing space while maintaining compatibility with a wide range of commercial playground equipment. Its molded plastic construction delivers long-term durability, weather resistance, and reliable performance in high-traffic environments such as schools, parks, churches, camps, and community recreation areas.
