Description

Durable Coverage!

The One Piece Ribbed Hex Roof – 8 Foot x 8 Foot is a large-format decorative playground canopy designed to provide coverage, durability, and architectural appeal for commercial play structures. Its hexagonal shape offers a distinctive design while maximizing shade coverage over elevated platforms.

Manufactured as a single-piece molded unit, this roof delivers enhanced structural integrity and simplified installation. The ribbed exterior styling adds classic visual detail while reinforcing strength and weather resistance for long-term outdoor performance.

Ideal for installation in schools, parks, churches, camps, daycare centers, and municipal recreation areas, this hex roof integrates seamlessly into modular playground systems and works well for both new builds and retrofit projects.
