Description

36 GALLON JACKSON RECEPTACLE ASH URN LID PLASTIC LINER Powdercoat (JK-36AU)

The 36 GALLON JACKSON RECEPTACLE ASH URN LID PLASTIC LINER Powdercoat is the exact jackson 36-gallon receptacle configuration listed as model JK-36AU in the 2026 manufacturer catalog. The manufacturer describes this SKU as 32 Gallon Jackson Receptacle W/ Ash Urn Lid & Plastic Liner - Pc. This identifies the orderable configuration, rather than every color, size or mounting variation offered across the broader product family.

The Jackson receptacle combines a 36-gallon capacity with powder-coated steel slats made from 1/8-by-2-inch flat bar and an all-welded frame. A lid and plastic liner are included.

The flat-top, rain-bonnet and ash-urn versions are separate configurations. Portable or surface mounting is specified; coordinate with Jackson benches for the matching slatted collection appearance. Review mounting conditions, compatible anchors and requested finish when planning a school, park, streetscape or recreation installation. Other family styles, accessory pieces and finishes are separate product selections unless specifically included in this model description.
