Description

Bring playful excitement to your playground with our Frog Rider, engineered to be park tough and built for long-lasting performance. This durable rider features a heavy-wall design with high impact resistance, making it ideal for schools, parks, and commercial play environments.

Designed for safety and comfort, the Frog Rider includes enclosed handle grips, non-skid footrests, and smooth, rounded lines that eliminate any concerns about sharp edges or protruding hardware. UV inhibitors are built into the material to ensure fade-resistant color and long product life, even in harsh outdoor conditions.

Completely maintenance-free and created with gentle, kid-friendly contours, the Frog Rider delivers dependable fun, encourages imaginative play, and withstands years of active use. Perfect for: public playgrounds, parks, child care centers, and recreation areas seeking safe, durable, and engaging motion-play components.

Note: This is only the plastic frog piece. The base is not included, additional.
