Description

Make a splash on your playground with Wally the Whale Rider, a durable and kid-friendly motion play component built to withstand years of fun. Engineered park tough, this rider features a heavy-wall, high-impact-resistant design that stands up to the daily demands of busy schoolyards, parks, and recreational play areas.

Wally's smooth, rounded shape ensures a safe and gentle riding experience, eliminating concerns about sharp edges or protruding parts. The design includes enclosed handle grips and non-skid footrests for added security as children climb aboard.

Constructed with ultraviolet inhibitors, Wally the Whale maintains vibrant color and structural integrity even under harsh sunlight, delivering exceptional longevity. Completely maintenance-free, it offers dependable performance and imaginative, ocean-themed fun for kids of all ages. Perfect for: playgrounds, parks, child care centers, community spaces, and any area looking for a fun, durable, and safe spring rider.

Note: This is only the plastic rider. The base is not included, additional.
