Product Image

Description

Secure your playground animal riders safely and permanently with the Floor Mount Base Plate, designed specifically for commercial spring-mounted riders like the Frog Rider and Wally the Whale. This heavy-duty mounting plate provides a stable, reliable base for long-term, high-traffic use in parks, schools, and recreation areas.

Because of its size and weight, accurate freight costs vary by location. Customers are encouraged to contact our team by phone or email for a precise shipping quote.

Durable, safe, and easy to integrate with your existing playground animal riders, the Floor Mount Base Plate ensures stability and security for years of active play.
