Description

Safe, Durable Imaginative Play!

Add imaginative play and motor skill development to your playground with our Playground Steering Wheel. Crafted from rotationally molded plastic with a design that contains no openings, this safe and durable component encourages role-playing, coordination, and creative interaction.

The wheel has an outside diameter of 13? (33 cm) and includes a mounting hole under a secure center cap, making installation simple and reliable. Available in a variety of vibrant colors, this component integrates easily into new or existing playground structures.

Built with safety and durability in mind, the Playground Steering Wheel is part of our commitment to providing the finest playground components, perfect for parks, schools, and childcare centers.
