Description

Durable, Safe, Versatile

Enhance your playground with the Stepping Stone, a durable, heavy-duty polyethylene component designed for fun, safe, and active play. Its non-skid surface provides secure footing, helping children build balance, coordination, and confidence.

The Stepping Stone includes molded-in threaded inserts for secure attachments and can be mounted on the ground or on hanging posts, offering versatile play options. With multiple colors available, it can be arranged in a variety of configurations to create dynamic, engaging play experiences for all ages.

Built for long-lasting performance, the Stepping Stone is perfect for schools, parks, childcare centers, and commercial playgrounds seeking safe, imaginative, and adaptable playground components.
