Description

Durable Play Panel!

Enhance your playground structure with the Flat Panel with Round Opening, a durable and versatile component designed for safe, engaging play. This commercial-grade panel features a smooth, precision-cut circular opening that encourages climbing, crawling, peeking, and interactive movement, making it perfect for imaginative and active play environments.

Constructed from heavy-duty, weather-resistant materials, the LLDPE panel provides long-lasting performance in parks, schools, childcare facilities, and indoor play areas. The round opening supports a wide range of play configurations and can be incorporated into new builds or used as a replacement panel in existing equipment.

Because of its size and weight, freight charges must be accurately quoted—please contact us directly by phone or email for exact shipping costs. (Cart-generated freight will not be accurate.)
