Description

Commercial Sectional Slide System

Unlock out-of-this-world flexibility with the 3-Foot Deck Height Starglide Straight Slide, part of a fully modular sectional slide system that lets you customize the ideal chute layout for your unique playground design. Whether you're replacing a worn chute section or building a new combination, this Starglide straight slide integrates seamlessly with multiple commercial play systems.

Built for 36-inch (3-foot) deck heights, the straight section pairs with a matching entry hood and exit/runout to complete a smooth, safe, and secure sliding experience. Each component is engineered with high-quality commercial materials, ensuring dependable performance in parks, schools, HOAs, and public playgrounds.

With its mix-and-match configurability, this slide section allows you to tailor your play structure’s footprint, orientation, and rider flow—giving you unmatched design freedom without

sacrificing safety, durability, or compatibility.

Dimensions:
- Deck Height: 36" (3 ft)
- Section Type: Straight sectional chute
- System: Modular Starglide slide system

(Exact length varies depending on total sectional configuration.)

This slide is a direct replacement for the following models:
