Description

Safe, Durable, Fun!

The 7 Foot Deck Height Starglide Slide – Wave is a premium commercial-grade sectional playground slide designed for safety, durability, and fun. Built for a 7 ft (84-inch) deck height, this slide features a wave design that adds exciting undulations to the ride, enhancing the thrill for children while keeping it safe.

The Starglide sectional system allows you to mix and match parts, creating a custom slide layout to fit your playground's needs. The slide includes a 36-inch entry hood and exit/runout, ensuring a smooth and safe ride for all users.

Crafted from rotationally molded commercial-grade polyethylene, this wave slide is designed to withstand outdoor conditions, heavy use, and UV exposure, making it ideal for parks, schools, HOAs, and commercial playgrounds.

This slide serves as a replacement for SGS-7Wave and SGS-7Wave2, and is compatible with Adventure Playground and Expedition System chute slides.
