Description

Rolling Wave Fun!

Elevate your playground experience with the Starglide 8-Foot Deck Height Open Entrance Wave Slide. Designed for an 8-foot deck height, this sectional slide brings the fun of a rolling wave profile combined with an open entrance for seamless integration into your playground design.

This slide section is a direct replacement for CSS-8Wave and CSS-8Wave2, making it ideal for playground repairs, upgrades, or modular slide expansion. The Starglide sectional system allows complete flexibility—mix, match, and create exciting slide paths for a unique play experience.

Constructed with commercial-grade rotational-molded plastic, this wave slide offers superior durability, UV resistance, and safety for high-traffic play environments. The entry hood and exit/runout are designed to align perfectly with the standard 36? (.9 m) interface, ensuring

smooth installation and consistent performance.
