Description

Fun, Fast & Safe!

The Starglide Slide – 8 Foot Deck Height – Right Turn is a high-performance sectional playground slide designed to deliver a fun, fast, and safe curved descent. Engineered for commercial use, this right-turn configuration is perfect for playground layouts requiring directional movement while maximizing space.

As part of the Starglide sectional slide system, this component offers mix-and-match compatibility with a range of entry hoods, mid-sections, and exit/runout pieces. This modular approach ensures seamless integration whether you're replacing a damaged slide section or designing a custom playground slide configuration from scratch.

Crafted from heavy-duty rotationally molded plastic, the slide is built to withstand years of outdoor use and high activity. It resists fading, cracking, and weather damage, making it a reliable upgrade for parks, schools, HOAs, churches, and commercial play environments.

This slide is engineered to work with a 36? (.9 m) entry hood and runout, ensuring proper alignment and safe transitions from deck to exit. This model can be a replacement for the following:

- SGS-8RT, Star Gate Sectional Slide for 8’ Deck Height Right Turn
- ASM1174XX, Right Turn Chute Slide for 8’ Deck Height – Adventure Playground SM
