Description

Enclosed Experience

Bring enclosed sliding fun to your playground with the 30 Inch Full Tube Slide Assembly, designed for 48-inch (4 ft) deck height playground systems. Tube slides add excitement while providing a more enclosed riding experience, making them a popular choice for commercial playgrounds seeking both engagement and space efficiency.

This assembly features 30-inch diameter tube sections molded with bell joints, allowing smooth connections for added length or integration with elbow sections. The spiral tube slide configuration creates a compact footprint while maintaining a controlled, enjoyable descent.

The 30” Tube Slide Spiral Assembly includes:
- Panel
- Straight tube section
- 90° elbow sections

- Installation hardware

(Flanged tube exit sold separately)

Designed for durability and system compatibility, this slide assembly serves as a direct replacement for multiple legacy straight tube slide models, making it ideal for both new installations and playground upgrades.

This 30 Inch Full Tube Slide Assembly (48? Deck Height) replaces the following models:
- 40008104XX and 50008104XX – Straight Tube Slide, 30? Diameter for 48? Deck Height
- 50608104CX – 30? Diameter × 48? Deck Height Straight Tube Slide
- A480291XX – 48? Deck Height Straight Tube Slide
