Description

Extend Your Tube Slide!

Customize and extend your playground tube slide system with the 24 Inch 30 Degree Elbow, a precision-molded component designed for 24-inch diameter playground tube slides. This elbow allows for smooth directional changes within modular slide layouts, making it easy to create custom configurations while maintaining proper alignment and flow.

Backed by a 10-year limited manufacturer's warranty, this component reflects a commitment to quality materials and long-term durability. Manufactured to integrate seamlessly with compatible tube slide sections, the 30-degree elbow supports creative slide designs while ensuring consistent performance in commercial playground environments.

This elbow is an ideal solution for both new playground installations and replacement applications, offering dependable compatibility within 24-inch diameter tube slide systems.
