Description

Extend Your Slide Today!

Create compact, full-turn transitions in your playground tube slide system with the 30 Inch 90 Degree Elbow, a precision-molded component designed for 30-inch diameter playground tube slides. This elbow allows for a complete right-angle turn, making it ideal for spiral layouts, space-efficient designs, and complex modular slide configurations.

Manufactured for durability in high-use commercial environments, this component is backed by a 10-year limited manufacturer's warranty, providing long-term confidence and performance. Designed to integrate seamlessly with compatible straight tube sections and other modular tube slide components, the 90-degree elbow supports both new installations and replacement applications.

Whether repairing an existing slide or expanding a custom layout, the 30 Inch 90 Degree Elbow delivers reliable compatibility and design flexibility for commercial playground systems.

This 30 Inch 90 Degree Elbow replaces the following models:

- 00126XX – 30? Diameter Tube Elbow (legacy naming reference)
- 01128XX – 30? Diameter Tube 90 Degree On-Grid Elbow
- 00128XX – 30? Diameter Tube 90 Degree Elbow
