## Product Image

## Description

### Smooth, Wavy Ride!

Add motion and excitement to tall playground structures with the Starglide Wave Slide – 9 Foot Deck Height, designed specifically for Starglide sectional playground slide systems. The wave profile introduces gentle rises and dips that enhance the sliding experience while maintaining a smooth, controlled descent suitable for commercial play environments.

Engineered for 9-foot deck height playgrounds, this wave slide integrates seamlessly with compatible Starglide supports, exits, and runouts, making it ideal for both new installations and replacement applications. The contoured design adds visual interest and play value without sacrificing durability or system compatibility.

Perfect for schools, parks, churches, municipalities, and other commercial playground settings, the Starglide 9 Foot Wave Slide delivers a dynamic slide experience built to withstand high-traffic use.

## Key Features

- Designed for Starglide sectional playground slide systems
- Wave slide configuration for added motion and fun
- Built for 9-foot deck height playground structures
- Integrates with compatible Starglide supports, exits, and runouts
- Ideal for new installations and replacement applications
- Commercial-grade playground slide construction
- Built for durability in high-traffic play environments
