Description

Dynamic Sliding Experience

Bring together accessibility, motion, and directional flow with the Starglide Open Entrance Veer Left Wave Slide – 9 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide features an open entrance, a wave slide profile, and a veer-left configuration, delivering an engaging and visually dynamic sliding experience for taller playground structures.

Engineered specifically for 9-foot deck height playgrounds, this slide integrates seamlessly with compatible Starglide supports, exits, and runouts, making it ideal for both new playground installations and replacement applications. The open entrance improves visibility and ease of access from elevated decks, while the wave profile adds motion and excitement. The veer-left design enhances layout flexibility and traffic flow within multi-slide playground systems.

Ideal for schools, parks, churches, municipalities, and other commercial playground

environments, the Starglide Open Entrance Veer Left Wave Slide combines durability, safety, and creative design options for high-traffic play areas.

Key Features
