Description

Great Option for Your Playground!

Add controlled direction and design flexibility to tall playground structures with the Starglide Turn Left Slide – 9 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide features a left-turn configuration that allows designers to guide slide flow while maximizing layout options on elevated play decks.

Engineered specifically for 9-foot deck height playgrounds, the turn-left slide integrates seamlessly with compatible Starglide entry components, supports, exits, and runouts, making it suitable for both new playground installations and replacement applications. The smooth turning profile maintains a consistent, enjoyable sliding experience while supporting safe traffic flow in multi-slide environments.

Ideal for schools, parks, churches, municipalities, and other commercial playground settings, the Starglide 9 Foot Turn Left Slide delivers durability, performance, and creative layout control in high-use play areas.

Key Features

- Designed for Starglide sectional playground slide systems
- Turn left slide configuration for controlled directional flow
