Description

Enjoyable Ride for All Ages!

Add visibility, accessibility, and controlled directional flow to tall playground structures with the Starglide Open Entrance Turn Right Slide – 10 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide features an open entrance paired with a right-turn configuration, guiding riders through a smooth directional curve while maintaining a consistent and enjoyable descent.

Engineered specifically for 10-foot deck height playgrounds, this slide is commonly referred to as a 20-foot playground slide, reflecting its overall slide length rather than deck height. The open entrance design improves sightlines and ease of access from elevated decks, while the turn-right profile enhances layout flexibility and helps manage slide traffic in multi-slide playground designs.

This slide integrates seamlessly with compatible Starglide supports, exits, and runouts,

making it ideal for both new commercial playground installations and replacement applications.

Key Features

- Designed for Starglide sectional playground slide systems
- Open entrance design for improved visibility and accessibility
- Turn right slide configuration for controlled directional movement
- Built for 10-foot deck height playground structures
- Approximate 20-foot slide length
- Integrates with compatible Starglide supports, exits, and runouts
- Ideal for new installations and replacement applications
- Commercial-grade playground slide construction
- Built for durability in high-traffic play environments
