Description

Engaging Snake Style Ride!

Create a longer, flowing slide experience on tall playground structures with the Starglide Snake Left Slide – 10 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide features a snake-style left curve, offering extended movement and smooth directional transitions that enhance both play value and visual appeal.

Engineered specifically for 10-foot deck height playgrounds, this slide is commonly referred to as a 20-foot playground slide, reflecting its overall slide length rather than deck height. The snake-left configuration provides a more winding descent than standard turn or veer slides, making it an excellent choice for larger commercial playground layouts that prioritize engaging ride experiences.

This slide integrates seamlessly with compatible Starglide entry components, supports, exits, and runouts, making it ideal for new playground installations or replacement applications in

high-traffic environments.

Key Features

- Designed for Starglide sectional playground slide systems
- Snake-style left slide configuration for extended, flowing motion
- Built for 10-foot deck height playground structures
- Approximate 20-foot slide length
- Integrates with compatible Starglide entry, support, exit, and runout components
- Ideal for new installations and replacement applications
- Commercial-grade playground slide construction
- Built for durability in high-traffic play environments
