Description

Enhance Your Slide Experience

Create a long, flowing slide experience with enhanced visibility and accessibility using the Starglide Open Entrance Snake Left Slide – 10 Foot Deck Height. Designed for Starglide sectional playground slide systems, this slide combines an open entrance with a snake-style left curve, delivering an extended, engaging descent that adds motion and visual interest to tall playground structures.

Engineered specifically for 10-foot deck height playgrounds, this slide is commonly referred to as a 20-foot playground slide, reflecting its overall slide length rather than deck height. The open entrance improves sightlines and ease of access from elevated decks, while the snake-left profile creates a longer, more dynamic ride than standard turn or veer slides.

This slide integrates seamlessly with compatible Starglide supports, exits, and runouts, making it ideal for both new commercial playground installations and replacement applications

in high-traffic environments.

Key Features

- Designed for Starglide sectional playground slide systems
- Open entrance design for improved visibility and accessibility
- Snake-style left slide configuration for extended, flowing motion
- Built for 10-foot deck height playground structures
- Approximate 20-foot slide length
- Integrates with compatible Starglide supports, exits, and runouts
- Ideal for new installations and replacement applications
- Commercial-grade playground slide construction
- Built for durability in high-traffic play environments
